

X-Air 375-150

The X-Air 375-150 air compressor offers you an extremely versatile and reliable machine in a cost-effective rental-ready package. Thanks to its intuitive PACE system (Pressure Adjusted through Cognitive Electronics) the new model gives you the most options from a single compressor. This technology enables the operator to set pressure anywhere in the machines range (72-150 psi), while automatically controlling the flow based on the applications demand.

Optimize your fleet investment, improve utilization and receive a higher return on investment. Atlas Copco technology allows for class-leading versatility and fuel economy while ensuring the engine and emissions components are running reliably and issue free.

Technical Specifications

Details		
Free Air Delivery	cfm	375
Working Pressure	psi	72 150
Sound Power Level	dB(A)	76
Max Ambient Temperature	°F (°C)	122 (50)
Minimum Starting Temperature	°F (°C)	-13 (-25)
Engine		
Engine Brand		John Deere
Engine Model		4045EWL
Emission Stage		Tier4Final
Number of Cylinders		4
Full Load Speed	rpm	2200
Unload Speed	rpm	1500
Dimensions		
Trailer Mounted	L x W x H	167 x 72.8 x 80.6
Weight	lb	4700

Features:

- 110% Spillage Free Containment Frame
- Intuitive Digital Controller XC2004
- Low Fuel Consumption
- HardHat™ Enclosure that is Dent and UV Resistant
- Simple Service Done in Less than 2 Hours

All the versatility of Atlas Copco in a 375 cfm rental-ready package!
